AMUSEMENT NOTES

"The Call of the North" on Thursday Evening, September 23.

The list of attractions named for appearance in the near future at the opera house includes Mr. Paul Gilmore and his company in "The Call of the North," in which he will make his annual bow on Sept. 23. Mr. Gilmore has had many successful vehicles and worthy productions in former years, and upon the excellent of all his past offerings has built an enviable reputation that attracts larger and larger audiences to see him each time he makes his appearance. His many admirers will be pleased with the glowing reports that have preceded him from other cities where he has appeared, pronouncing this the crowning achievement of his career. "The Call of the North" is a comedy drama of the Hudson bay regions in northern Canada, by George Broadhurst, author of "The Man of the Hour" and is founded on Stewart Edward White's novel, "Conjuror's House."

MONTPELIER

Dr. Steele returned yesterday from a two days' examination of the insane hospital at Waterbury. There are now 560 patients at the hospital.

The sophomore class of the high school have elected the following class officers: President, John Berry, vice-president, Mildred Chasben, secretary, Edith Wallace; treasurer, Carolyn Pike.

W. E. Palmer has sold a driving horse to parties in Northfield, the price being about \$175. This leaves but one horse in Mr. Palmer's stable, and in the future he will keep only Morgan horses.

The high school will play its first game on the grid iron next Saturday when it will meet the alumni on the senior campus. The alumni have not played before this year but they will outweigh the high school, which should even matters up so that a fast game may be expected.

Carl and Ray Hardigan, while playing in Hubbard park Sunday, dug up four very old half-dollars which bear the dates of 1821, 1827, 1832, and 1835. The coins, when cleaned up, were found to be in very good condition. There is a big bunch of the younger generation now spending their spare time in Hubbard park.

The teachers of the high school are in a quandary to know how to arrange classes in the high school building. There is accommodation for about 140 pupils and there is a registration of 175 pupils. The senior English class is meeting on the campus in pleasant weather and in the basement the rest of the time. The teachers and pupils are anxiously waiting for the completion of the new school building.

The McFarrell boys, George and Alfred, aged eight and six respectively, were brought before Judge Harvey yesterday for sentence. The case had been continued several times and if a home could be found for the youngsters but nothing could be done for them. The boys were arrested for breaking into the Montpelier creamery. Judge Harvey fined them \$50 and costs each, but as they were unable to pay, they were taken to the industrial school at Waterbury for an alternative sentence of 165 days. Their mother claims she can do nothing with them.

IN LOCAL MARKETS

Dressed Pork is Reported High To-day

POTATOES ARE PLENTY

And Prices Are Unsteady—Ricker's Market Reports That Poultry and Veal Are in Demand—Hogs Are Higher.

Barre, Vt., Sept. 15, 1909.

Dressed pork high. Potatoes plenty and prices unsteady. Wholesale quotations:

Dressed pork—10@11c.
Fancy veal—9c.
Lamb—11@12c.
Pork—16@17c.
Chicken—18@20c.
Fresh eggs—Easy at 25@26c.
Butter—Creamery 32@33c, dairy 29@30c.
Potatoes—Freely offered at 50@60c.

IN RICKER'S MARKET.

Best Beef is Firm—Hogs Are 1/4 Cent Higher.

St. Johnsbury, Sept. 15.—Ricker's market reports best beef is firm and other kinds low. Poultry and veal are in demand. Sheep and lambs are steady, while hogs are 1/4 cent higher. The receipts for the week were:

Poultry—4,000 pounds, 8@10c.
Lamb, 1,250, 8@9c.
Hogs—250, 6 1/2@7 1/2c.
Cattle—200, 1 1/2@1 3/4c.
Calves—600, 5@5 1/2c.
Milk cows—825@855.

IN BOSTON MARKETS.

Butter Holds Very Firm—Cheese Market Also Firm.

Boston, Sept. 15.—Butter holds very firm in the local market and it is not improbable that northern butter will be advanced to-day, as the New York market advanced 1/4c yesterday and at Canton, N. Y., on Saturday, the basis for fancy creamery butter was 31 1/2c, an advance of 1 1/2c over the price of the week before. The Elgin, Ill., market held firm and unchanged at 30c, suggesting an increased production, since the weather west has been excellent lately.

Just now there is a decided scarcity of fine butter from all points of production and prices are more than six cents a pound higher than they were a year ago. It seems very likely that prices will be higher than usual throughout the winter, but it is idle to predict how high they will be, when nothing is known of the size of the fall production. It is a well known fact that the conditions in the producing sections are better to-day than they have been before in some time, quality of the late arrivals shows a distinct improvement over the stock that was received a few weeks ago and it is not out of the range of possibility that the fall make will be heavy, especially if present conditions in the country continue.

The talk of 50-cent butter is ridiculed by well posted members of the trade and there is not much fear that substitutes like oleomargarine will be very extensively used. Dealers say butter is selling more freely at current prices than it did a year ago when the market was much lower and it would seem that the public have grown acquainted with good butter and want it, despite what it costs.

The present condition of the market is due chiefly to the fact that the production has fallen behind the demand. If the production of butter from now on until the creameries shut down is up to the average of the past 10 years and includes a reasonably good proportion of the better grades, there is no reason to expect extraordinary high prices.

The cheese market also is very firm, since country markets continue to climb. The local demand is neither brisk nor large quantities, and although receipts are light, the supply is fairly large; the firmness of the market, therefore, is chiefly in sympathy with the country markets. Canton, N. Y., quotes cheese at 16c, an advance of 1/2c over last week's quotation, and at Watertown, N. Y., the range is 15@15 1/2c, as compared with 14 1/2@15 1/2c a week ago. Good eggs are daily getting scarcer and the tendency of prices is upward.

Jobbing quotations:

Butter—Fancy southern creamery, tubs 34c, boxes 35@35 1/2c, prints 35 1/2@36c, western ash tubs 32@33c, dairy 31@32c.

Cheese—New York full cream, fancy 16 1/2@17c, Vermont 15 1/2@16c, Wisconsin young American 17 1/2c, sage 17c.

Eggs—Fancy henery 30@31c, choice eastern 32@33c, fresh western 27@30c.

The Road to Success

has many obstructions, but none so desperate as poor health. Success to-day demands health, but Electric Bitters is the greatest health builder the world has ever known. It compels perfect action of stomach, liver, kidneys, bowels, purifies and enriches the blood, and tones and invigorates the whole system. Vigorously body and keen brain follow their course. You can't afford to slight Electric Bitters if weak, run-down or sickly. Only 50c. Guaranteed by the Red Cross Pharmacy.

Act Quickly

if you have a sudden chill—if you have colic, cramp or diarrhoea—don't wait a minute. Take a teaspoonful of Perry Davis' Painkiller in half a glass of hot water or milk. You'll be on the road to quick recovery. Have this tried remedy on hand for immediate use. Being prepared is half the battle. New size bottles 50c, also in 25c. size.

ESTIMATING THE WHEAT.

Probabilities of the Outcome of a Very Interesting Season.

The wheat season starts with smaller reserves even than in the famous year 1897, when low supplies of old wheat, followed by a 50 per cent shortage in the European crop and a 100,000,000 bushel increase in our own, had some remarkable financial results. This means a sure and quick market for the new crop. It is impossible as yet to estimate the probable foreign wheat harvest of 1909; latest advices indicate that, while the crop in France, England and Russia will be sufficient, Germany and the Danube states have fared badly, so that the total European crop will hardly match the abundant yield of 1906 and 1908. The obvious meaning of such a situation is that Europe must have such of our wheat surplus as the American market can spare, and must pay fair prices for it.

Had the winter wheat estimate of Aug. 14 confirmed the 400,000,000 bushel production
